

As a local Non-Profit, community is everything to us. Local businesses like yours help us grow in the community and receive the support we need. Support comes in all sizes, and we appreciate wholeheartedly what you can give.

Elijah Family Homes has provided safe, stable, affordable housing and supportive services since 2005. The average family support cost in our transition to success program (TTS) is \$7,500 annually. We are currently providing housing to 27 families and growing. Our ability to provide housing to more families is only limited by our funding and resources.

In an article from the Center on Budget and Policy Priorities, written Feb. 2022 by Sonya Acosta, titled "Stable Housing is Foundational to Children's Well-being," It stated..."Frequent, prolonged, or acute hardship in early childhood can permanently affect brain development and related systems. Housing instability creates significant stress for all household members and can strain relationships between adults and children or other adults."

Families that come to us at Elijah family Homes are committed to working hard to break the cycle of substance abuse and past choices. They are steadfast in building new lives as they participate in the following:

- Case Management • Regular drug screening • Financial Management
- Education • Recovery Support • Mentorship • Parenting Guidance & Education
- Mental Health

We would be honored if you partnered with us by creating and giving a basket that we can raffle, auction, and use to raise money and awareness. We have events throughout the year, and your donation will help us meet our goals. We will share that you are partnering with and supporting team EFH on social media.

A recent participant summed it up with this statement, " This program is a miracle maker. It gives those of us who may have a few mistakes one more shot at doing life right. "

Thank you for your time and consideration.

Kind Regards,
Team EFH
